BOK SENG LOGISTICS

WE UPLIFT LIVES,
ONE HEAVY LIFT AT A TIME

Why Us.

- Proven track record with over 40 years of supply chain experience and know-how
- Strong footprint and operations in eight countries across Southeast Asia
- Robust engineering capabilities for precise implementation
- Offer cost advantages as an asset owner-operator
- Customisable and scalable solutions
- Passionate logistics experts and problem solvers

Presence in Southeast Asia

Singapore, Malaysia, Myanmar, Indonesia, Cambodia, Brunei, Vietnam and Thailand

Vertical Specialisation

Marine, Oil and Gas, Healthcare, Defence, Construction, Energy and Industrial

About Us.

With deep expertise and engineering know-how in large-scale project logistics, as well as container haulage, and warehousing and distribution management, Bok Seng Logistics' robust team of over 400 regional logisticians and engineers have what it takes to move and store unique, sensitive, and complex cargos that require careful planning and solutioning, feasibility engineering studies and precise implementation, across the region. We transform blueprints into physical realities and our competencies are ingrained in a wide range of industries such as marine, oil and gas, healthcare, defence, construction, energy, industrial and electronics for both land and sea.
